

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended): A portable power assembly comprising:
 - a platform, said platform being transportable;
 - a renewable energy power system disposed on said platform, said renewable energy power system comprising a solar energy power system having at least one solar panel, a back-up generator, a fuel storage container, and batteries; and
 - ~~wherein~~ said platform is removably disposed on a transporting vehicle for transportation of said platform and said renewable energy power system thereon.
2. (Cancelled):
3. (Cancelled):
4. (currently amended): The assembly of claim [3]1 wherein said solar power system comprises a solar panel array comprising photovoltaic cells.
5. (original): The assembly of claim 4 wherein said solar panel array produces greater than 640 watts.
6. (currently amended): The assembly of claim 5 wherein said solar panel array ~~is~~ produces between 1000 and 2000 watts.
7. (currently amended): The assembly of claim [2]1 wherein said solar energy power system tracks and moves in the direction of the sun to maximize power.

8. (currently amended): The assembly of claim 1 further comprising a wind energy system.
9. (Cancelled):
10. (Cancelled):
11. (Cancelled):
12. (Cancelled):
13. (currently amended): The assembly of claim [12]1 wherein said batteries are enclosed in a cool-cell battery box.
14. (currently amended): The assembly of claim [12]1 further comprising an electric output connector.
15. (currently amended): The assembly of claim [12]14 wherein said electric output connector connects said batteries to a structure to supply electric energy to said structure.
16. (currently amended): The assembly of claim [12]1 further comprising an inverter to convert energy from direct current to alternating current.
17. (original): The assembly of claim 1 further comprising a communications system.
18. (original): The assembly of claim 17 wherein said communications system comprises a satellite dish.

19. (original): The assembly of claim 1 wherein said assembly is transportable to remote locations.

20. (Cancelled):

21. (Cancelled):

22. (Cancelled):

23. (Cancelled):

24. (Cancelled):

25. (Cancelled):

26. (Cancelled):

27. (Cancelled):

28. (Cancelled):

29. (Cancelled):

30. (Cancelled):

31. (Cancelled):

32. (Cancelled);

33. (Cancelled);

34. (Cancelled);

35. (Cancelled);

36. (currently amended): The assembly of claim 1 further comprising a wind energy system and a communications system.

37. (Cancelled);

38. (Cancelled);

39. (Cancelled);

40. (Cancelled);

41. (Cancelled);

42. (Cancelled);

43. (Cancelled);

44. (Cancelled);

45. (currently amended): The assembly of claim 1 further comprising an electric output connector to connect the renewable energy power system[,] to a structure or vehicle to supply electric energy to the structure or vehicle.

46. (currently amended): A method for providing portable, renewable energy comprising the steps of:

providing a renewable energy power system, the renewable energy power system comprising a solar energy power system having at least one solar panel, a back-up generator, a fuel storage container, and batteries;

disposing the renewable energy power system on a transportable platform; and
removably disposing the transportable platform on a transporting vehicle for transporting the platform and the energy power system disposed thereon;

transporting the transportable platform with the energy power system disposed thereon to a desired location; and

powering up the solar energy power system to provide the energy.

47. (Cancelled):

48. (currently amended): The method of claim 46 further comprising the step of transporting the renewable energy power system and the transportable platform to a remote location.

49. (original): The method of claim 46 further comprising the step of connecting the renewable energy power system to a structure or vehicle requiring energy.

50. (Cancelled):

51. (currently amended): The method of claim 46 wherein the renewable energy power system further comprises comprising the step of providing a wind energy power-system.

52. (Cancelled):

53. (Cancelled):

54. (currently amended): The method of claim 46 wherein the renewable energy power system further comprises~~comprising the step of providing~~ a communications system.

55. (Cancelled):
